

REMARKS

Applicant would like to thank the Examiner for the careful consideration given the present application. The application has been carefully reviewed in light of the Office action, and amended as necessary to more clearly and particularly describe the subject matter which applicant regards as the invention.

Claims 1-18 remain in the application. The Examiner has indicated that claims 1-7, 10, 12-16 and 18 include allowable subject matter. The drawings have been objected to because figure 5 includes a reference number "4" that is placed incorrectly. Figure 5 has been amended to correct this reference number.

Claims 8-9, 11 and 17 have been rejected under 35 U.S. C. 112, second paragraph, as being indefinite. Claims 8-9, 11 and 17 have been amended for clarification purposes. Claim 14 has also been amended for clarification. Specifically, reference to "capacitive elements" have been deleted from claims 8 and 9. Reference to "each capacitance" has been deleted from claim 11. Claim 17 has been amended to refer to "capacitor ring disks" in plural.

In light of the foregoing, it is respectfully submitted that the present application is in a condition for allowance and notice to that effect is hereby requested. If it is determined that the application is not in a condition for allowance, the Examiner is invited to initiate a telephone interview with the undersigned attorney to expedite prosecution of the present application.

If there are any additional fees resulting from this communication, please charge same to our Deposit Account No. 18-0160, our Order No. WFG-15242.

Respectfully submitted,

RANKIN, HILL, PORTER & CLARK LLP
